

Marine Environmental Threats

an Erasmus Blended Intensive Programme to inform about human impacts on the ocean environments

Agnese Marchini ¹ | Ana Maria Costa ² | Maren Ortiz-Zarragoitia ³ | Mar Santos-Simón ^{1,3}

¹ Università di Pavia (Italia) · ² Universidade dos Açores (Portugal) · ³ Universidad del País Vasco (España)

Reported as an example of
"Good education practices for environmental sustainability" by
Italian National Erasmus Agency

Learning on the threats that jeopardize the future of our oceans

Teaching approaches

Hybrid course:
online · in-presence

Lectures · Group tasks · Seminars ·
Field work · Lab work ·
Final theatre workshop

Topics

Environmental
pollution

Underwater sound
pollution

Climate change
& acidification

Overfishing &
fisheries management

Marine non-
indigenous species

In numbers

Participation:

- 3 countries
Italy · Spain · Portugal
- 11 lecturers
- 30 students

... learn more

A course of 6 ECTS:

- Online (2 ECTS)
- In-presence (4ECTS)

Soft skills

Multidisciplinary · teamwork · multiculturality
· communication · time management ·
creativity · self-expression

Science communication

Theatre workshop

... bringing together

Science & arts

Self-expression
